

MicroSaver® Chassis Lock - Supervisor Keyed

Protect the assets of all your desktop computers

P3019-K64603WW

Product Description

The Kensington MicroSaver® Chassis Lock with Master Key access for supervisors prevents unwanted access to the components of your desktop computers. By locking down the chassis, it secures the valuable components inside, such as the CPU, memory, and graph

Features

- Hidden Pin™ technology ensures tubular locks cannot be picked offering the highest level of security
- Tamper Evident™ technology alerts you that someone has tried to steal your device
- Uses Master keying- only the supervisor will have access to the components
- Anti-Shear™ technology protects against intrusion by force
- Attaches to desktop computer via the built-in Kensington Security Slot
- Free Register & Retrieve™ on-line key and combination code registration for secure key replacement or code retrieval
- Tamper-evident feature goes into lockdown mode and displays a red dot if tampered with
- Tough, stainless steel components
- Patented T-Bar™ locking mechanism provides superior strength and theft protection
- Secures the computer cabinet to prevent theft of components, including CPU, graphics card and hard drive
